Connect-Route

SPECIFICATIONS

Interfaces	3 x WAN Gigabit Ethernet Port 2 x LAN Gigabit Ethernet Port 1 x USB 2.0 2 x Standard SIM Slot (E-SIM Optional) 1 X Micro SD Slot
3G/4G Modem	2 x 4G LTE Cat 6 Global Modem (150Mbps Uplink/50Mbps Downlink)
Antenna Connections	4 x LTE Cellular (Main 1, Aux 1, Main 2, Aux 2) 2 x Wi-Fi 2.4G/5G 1 x GPS
Power Input	48V/1A or 12V/3A DC input or PoE input (802.3at)
Power Consumption	<15W (Excluding USB Tethering Connected Device Consumption)
Working Temperature	If powered by PSU, -4 ~ 131°F If powered by POE, -40 ~ 158°F
Dimension/Weight	9.45" x 5.71" x 1.57" / 2.99 lbs.

PRODUCT OVERVIEW

The Connect-Route is an all-in-one internet powerhouse designed to meet the demanding network requirements of today's yacht owners. Equipped with two Global LTE Cellular Modems that can deliver maximum data rates up to 150 Mbps downlink and 50 Mbps uplink*

*Speeds may vary based on SIM card provider and Cellular Plan provisions.

The Connect-Route also has a built in 2.4G/5G Wi-Fi Bridge that allows connection to hotspots at the fastest speeds available today replacing the need to add extra equipment or steps to connect to the Marina's Wi-Fi.

The Connect-Route has 3 controllable WAN ports to connect your vessel to other internet services such as Satellite, Shore Lines, etc. and the USB port in the front supports tethering to Mobile Devices. And finally, two 2 LAN ports are provided to give access to the rest of the devices on board.

Control of download and upload speeds as well as blocking is available down to the Device level via the DHCP server list in the easy-to-use interface.
